## SAVANNAH RIDGE

### 2017 Pinot Noir

*The Savannah Ridge Pinot Noir is named for a unique outcropping of marine sedimentary deposits nested within the Yamhill-Carlton AVA. This identifiable ridgeline runs west to east and encompasses Mineral Springs Ranch and a small cluster of neighboring vineyards. The soils are mostly Wellsdale with some areas of Willakenzie, Melbourne and Peavine, all of which lie atop rock composed of fractured sandstone and siltstone. Wines grown on the Savannah Ridge are are dark red-fruited and spicy; with hints of minerals and dried herbs.*
